*Legislators need to hear your voice now more than ever. We're in the middle of the 2011 Legislative Session, facing many tough choices due to the Great Recession. Even though nearly \$5 billion has been cut from the state operating budget over the past two years, tax revenues still fall too short of projections.*

*We invite you to be part of a robust community discussion as we work through a \$4 billion shortfall to balance the budget for 2011-2013 and plan for our state's future beyond these tough times. With limited resources, how should we prioritize policies and funding for K-12 education, criminal justice, public health, early learning, higher education, and safety net services for vulnerable people? We look forward to hearing your ideas. If you can't attend, please email or call us with your feedback.*
